561.427.8901

### **Training Experience**

Over 17 years as a technical instructor, course developer and Director of training for several large high tech multi national corporations.

### **Business Description**

Principal - Bella Power & Light

Anthony Vitucci has 35 years Engineering experience and founded Bella Power & Light in 2005. He's technical skills are varied and include extensive experience designing energy saving solutions for marine, commercial and residential applications.

Bella Power & Light specializes in LED Lighting and Lighting Controls, with offices in Jupiter, Miami, Clearwater and Sarasota Florida.

Bella Power & Light is a Cree Nationwide Distributor, as well as several other American made LED products.

## *Are LEDs the right choice for my community?*

*This class/seminar is delivered for FREE at your location.*

*We ask that you have at least 4 CAMS present for the class.*

This class is one hour long and earns the participant 1 credit to satisfy the 4 hour requirement for:

- Operation of the community association's physical property

The content of this seminar is specifically designed to provide property managers/board members the necessary knowledge to make a sound decision when considering LED lighting for their communities.

### Materials and Methods:

Each objective has a predetermined amount of time devoted to delivering the content needed to achieve the desired results. The content in this class is instructor lead and content is delivered via instructor lead PPT.

The entire presentation will be conversational and informal. Attendee participation is encouraged.

- This Course has been developed using the most recent and timely LED Lighting Industry information, using the following sources:
  - United States Department of Energy
    - <http://energy.gov/eere/ssl/solid-state-lighting>
  - Energy Star
    - [https://www.energystar.gov/index.cfm?c=lighting.pr\\_what\\_are](https://www.energystar.gov/index.cfm?c=lighting.pr_what_are)
  - The Design Lights Consortium™
    - <https://www.designlights.org>
  - Florida Power & Light
    - <https://www.fpl.com>

## Learner Objectives

Total Time - 50 minutes

At the end of this class the participants will be able to:

- ✓ Identify the 4 top reasons why LED lighting is beneficial to their communities.
- ✓ Identify the top 5 characteristics of a financially sound and reliable LED manufacturer.
- ✓ Identify what information must be included within an LED proposal needed to make a sound purchasing decision.
- ✓ List the steps to qualify if a LED vendor is experienced in designing, providing and installing LED lighting for their communities specific applications.
- ✓ Explain the importance of lighting controls to their communities.
- ✓ Choose from a list of lighting applications the ones that are not investment worthy.
- ✓ Choose between several energy analysis to determine which one is complete, has been completed using accurate information and contains reasonable assumptions.
- ✓ Questions and Answers
- ✓ Exit Survey

## Learner's Course Evaluation

**Course Title**

**Presenter:**

**Date:**

Below are a series of statements. Please respond by **circling** the number you feel most reflects your opinion.

	Strongly Agree	Agree	Neither Agree Or Disagree	Disagree	Strongly Disagree
The course fulfilled the objectives set out in the brochure	5	4	3	2	1
The course satisfied my own needs and expectations	5	4	3	2	1
The content was presented at a level which could readily be understood	5	4	3	2	1
The material presented had practical relevance	5	4	3	2	1
I feel I contributed to class discussion	5	4	3	2	1
I was motivated to learn	5	4	3	2	1
Course handouts & texts helped reinforce learning	5	4	3	2	1
There was a variety of teaching methods	5	4	3	2	1
The teaching methods used helped me learn	5	4	3	2	1

effectively					
The presenter knew his/her subject thoroughly	5	4	3	2	1
The presenter built a good rapport with the group	5	4	3	2	1
There was opportunity for feedback and evaluation	5	4	3	2	1

**Additional Comments** (Please feel free to continue comments overleaf)  
Which aspects of the course worked well?
